

How to add a "buy ticket" *button* using wordpress as exemple

iframes

An inline frame <iframe> is used to embed another document within the current HTML document

It allows to easily integrate a "Buy ticket" button to a personal website.

iframes can be added almost anywhere on a php/html website

install iframe

- ▶ Go to : <https://wordpress.org/plugins/iframe/>
- ▶ Install the plugin to your worpress
- ▶ Create or edit a page
